PROFILE SUMMARY

B.Sc. in CSE graduate (2023) and full-stack developer with a strong foundation in JavaScript and React, built through hands-on personal and freelance projects (e-commerce platform, POS system, and multiple web front-ends). Comfortable across the stack — from React/JavaScript on the frontend to Laravel, Python, and Node.js on the backend — and a fast learner who picks up new frameworks quickly. Eager to grow into Next.js and Strapi CMS, and excited by the idea of shipping code that real students use every day.

TECHNICAL SKILLS

Frontend: React, JavaScript, HTML, CSS, Bootstrap, Material UI (quick learner — ready to grow into Next.js)

Backend: Laravel, PHP, Python, Node.js

Database: MySQL, MongoDB

Tools & Version Control: Git, GitHub, API Integration, Firebase

Other: Comfortable working with CMS-style/admin-driven systems (built admin dashboards for e-commerce & POS projects); ready to learn Strapi

KEY PROJECTS

- Everyday Crackers — Laravel E-commerce Platform: Built a complete e-commerce website, including product catalog, shopping cart, checkout, order management, and an admin dashboard (CMS-like content management).
- POS (Point of Sale) System — Laravel: Developed a POS system for retail/business operations, covering inventory tracking, billing, and sales reporting.
- Black Electrical (Web App) — React, Bootstrap, Material UI, Node.js, React Router, React Hook Form, Firebase, MongoDB. Self-managed end-to-end build.
- TinyOne, e-School, Minimo (Web Front-ends) — JavaScript, HTML, CSS, Bootstrap.

KEY SKILLS

- Strong problem-solving & critical thinking
- Quick learner — comfortable picking up new frameworks (Next.js, Strapi) on the job
- Good written & verbal communication
- Handles pressure well — self-managed live, production-facing projects end-to-end
- Time management & teamwork
